Re: Notice of Obsolescence to EU and NRND to ROW

Due to a change in our strategy, we have identified the following parts are no longer viable for us to re-certify to the new ETSI Radio Equipment Directive standard (2014/53/EU RED) and hence we cannot continue to sell these parts in the European Union (EU) as ETSI RED certified devices.

In addition, these parts will be NRND (Not Recommended for New Designs) for the rest of the world effective immediately. Anaren will continue to support customer orders for customers already in production (outside of the EU).

Anaren Part No.	Description
A20737AGM	Internal Antenna module Tray packaging
A20737CGM	External Antenna module Tray packaging
A20737AGR	Internal Antenna module Reel packaging
A20737CGM	External Antenna module Reel packaging
A20737A-MSDK1	Evaluation Platform

We regret having to discontinue selling these products in the EU and NRND to the rest of the world, but we find it a vital part of our strategy in properly managing this product line. If you have any questions or need further information, please call me at 1-315-432-8909 or send an e-mail to jeff.liebl@anaren.com.

Sincerely,

Jeff Liebl,
President – IoT group
